

## GIRL GIVES SKIN TO FIRE VICTIM

Arm of Driller Burned in Oil Explosion Saved by Grafting Operation

## MISS SEAL THE DONOR

Is One of Four Who Offered to Sacrifice Flesh to Assist Patient

Thirteen inches of skin taken from the back of a girl and grafted on the arm of a driller who had been burned in an oil well explosion, was the heroic deed of Miss Seal, donor, at the Tulsa hospital. The operation was performed at the hospital Monday morning by a team of surgeons.

The man on whom the skin was grafted was C. A. Parker, an oil driller who received severe burns all over his body when an oil well exploded in a field near Sapulpa last November. His burns covered his entire left arm, the left side of his chest, his back and scattered patches over all parts of his body.

According to the attending physician, the burns were practically all healed up by last February. There was considerable contraction of the left arm, both at the shoulder and elbow. It became necessary to cut the hands at both the elbow and shoulder. With the cutting of these hands the arm was straightened out and skin grafted on the burned area. This skin was taken in strips from the thighs of the sufferer. Two operations were performed to graft the skin on the burned arm. In these operations the physician removed 100 square inches of skin from the thighs of the patient.

Last week it developed that Parker was not able to move his arm without causing severe pain at the left side of the chest where the flesh had become thick from the burn. All available skin had been removed from the patient, and it became necessary to use the skin of another person. When the physician announced that he would have to have about 35 inches of skin to get the patient straightened up properly, four attendants at the hospital offered to give as much skin as was needed. Miss Seal was chosen. All of the attendants said they would give their skin gladly because the man had suffered so much they were anxious to see him get well.

Miss Seal was placed under a light gas anesthetic and the skin was removed in strips from her thighs. The patient was placed under an anesthetic and the thickened area down over the chest was removed and the skin of Miss Seal was grafted. The attending physician announced Monday afternoon that the man would be up and have the use of his arm in about 10 days.

We still have an assortment of early spring hats which we will have on sale Tuesday for \$5. All untrimmed hats on sale \$5. Sale for Tuesday only. Roulet Millinery Parlors, over Woolworth—Adv.

## TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or are hard of hearing or have head noises go to your druggist and get 1 ounce of Piggly Wiggly (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial—Adv.

## PUT CATALO IN CHICAGO SHOW

Hybrid Steer Expected to Create Astonishment at Exhibition

Special to The World.  
PONCA CITY, May 2.—To produce what will be the world's champion fat steer at the national livestock show in Chicago this year, the Miller brothers of the 1st ranch are now feeding a catalo steer on a balanced ration and giving him plenty of rest.

The animal is a one-fourth buffalo and three-fourths Angus, a three-year-old. He weighed between 1,000 and 1,200 pounds when fat and forced into a small stall several weeks ago, and the Miller brothers believe they can make him the biggest steer that ever struck Chicago.

The steer was born on the ranch and had never been caught until it was determined to make a champion steer of him. He was very wild at the outset and none of the men could enter his stall, although he was securely fastened. He would kick and fight off all comers and it was necessary to feed him carefully from in front. Now, however, as he grows fatter, he is becoming more docile and he is being carried and groomed every day. The steer is in coal black.

He will be shipped to Chicago at the time of the big show. He is small but should produce a greater proportion of meat than do other cattle.

Old Cases on Docket.  
MIAMI, May 2.—The May term of district court opened here today with Judge S. C. Fullerton on the bench. The civil docket is being taken up first, and is expected to consume two weeks. After that there are several criminal cases, some of which have been postponed several times, that will likely be tried.

## TRAIN SCHEDULE UNHANDY

Hasten Effort to Release County Highway Appropriation.  
PAWBUKA, May 2.—A movement has been set on foot by the Pawbuka chamber of commerce to get into closer touch with the towns of Pawbuka, Grapola, Pearsonia and Frankfort to the northwest. A recent change in the schedule of the Midland Valley Railroad company makes it impossible for the people of these towns to come to Pawbuka either to do their shopping or to attend to business at the courthouse without a stopover of 24 hours.

At the same time the completion of the road from Pawbuka to Frankfort, which connects with those towns, is being held up by lack of funds now tied up in the highway department. An appropriation of \$5,000 for work on this road was made by the county commissioners to be paid out of the state highway construction fund. It is believed, however, that this matter will be straightened up in time to permit the county to take up the work in two or three weeks.

## STRONG ON JUNKETS

Pawbuka Planning Series of Trade Trips to Neighboring Oil Territory.  
Special to The World.  
PAWBUKA, May 2.—Pawbuka will be strong for trade excursions this year and four have already been announced by W. W. Gruber, chairman of the entertainment committee, who will be in full charge. The initial trade trip will leave here Friday, May 14, and will devote the day to Wynona and Hominy. The second excursion will take in the Carter and Hickman oil fields, Kaw City, Burbank and other western points in Osage county.

An all-day and all-night stay in Tulsa is scheduled later in the spring and the fourth will visit Bartlesville and intermediate points. One hundred cars are being lined up for the Wynona-Hominy trip. The committee consists of W. W. Gruber, Frank Beauman and C. H. Gilbert. The county engineer is putting on a full force and rushing to completion the Pawbuka-Western highway, which will be a short cut to the Carter and Hickman oil fields, 21 miles west of Pawbuka.
